## Georgia Electronic Conviction Processing Systems (GECPS)

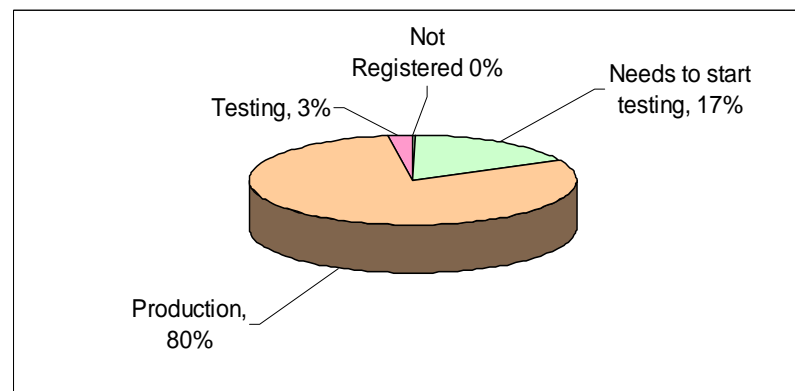

### • **What is GECPS?**

A standardized, and secure method to report GA Reportable Violation Codes to DDS according to HB1253.

### • **Version 1 vs. Version 2 of GECPS**

Electronic courts will need to upgrade to take advantage of the enhancements that will make reporting electronically more logical. Please contact your vendor if you believe you're not using the latest version. A comparison is covered in the GECPS Tutorial.

(as of June 2009)

### • **Update court contact information**

Courts can provide DDS with contact information at their convenience. This is covered in the GECPS Tutorial.

### • **NEW report - Monthly Court Reporting**

This is listed on the homepage of DDS's website and reflects totals of convictions reported by court.
